Phil

My apologies for not getting back to you earlier. I do not need your comments on the FSP addendum, it is for TCEQ's records. The contractor started sampling Monday and they were in the process of wrapping up when I left yesterday. I will let you know as soon as I get lab results in.

Thanks

Subject: Falcon Refinery - FSP Addendum 2

Brian,
I received a copy (hard and electronic) of Falcon's Field Sampling Plan Addendum 2 and have a question. The cover letter from EA states that this addendum updates the original FSP to incorporate samples collected during the October 2014 sampling event.
Is this document for my review or just my copy of the addendum?
